

Example 3: Basic Formatting

jave

August 25, 2022

Text can be *emphasized* (`\emph{}`). Besides being *italic* (`\textit{}`) words could be **bold**, (`\textbf{}`) *slanted* (`\textsl{}`) or typeset in SMALL CAPS (`\textsc{}`). Such commands can be ***nested*** (`\textit{\textbf{}}`). *See how emphasizing looks when nested* (`\emph{\emp{}}`).

It can also underline texts

List of formats:

- *Emphasize format* (`\emph{}`)
- *Italicize format* (`\textit{}` same as `\emph{}`)
- **Bold format** (`\textbf{}`)
- *Slanted format* (`\textsl{}`)
- SMALL CAPS FORMAT (`\textsc{}`)
- Underline format (`\underline{}`)
