Example 5: Font Sizes

Jave

September 15, 2022

1 Different font size declarations

<small><small>tiny</small></small> <small>script</small> <small>footnote</small> <small>small,</small> <small>get</small> big and bigger, huge

and gigantic!

From smallest to largest:
\tiny \scriptsize \footnotesize \small \normalsize \large \Large \LARGE
\huge \Huge

Another way to adjust the font size is by using an environment with declarations (\begin{} and \end{})
