Example 3: Basic Formatting

jave

August 24, 2022

Text can be *emphasized* (\emph{})). Besides being *italic* (\textit{}) words could be **bold**, (\textbf{}) *slanted* (\textsl{}) or typeset in Small Caps (\textsc{}). Such commands can be ***nested*** (\texit{\textbf{}}). *See how* emphasizing *looks when nested* (\emph{\emp{}}).

It can also <u>underline texts</u>

List of formats:

- *Emphasize format* (\emph{}))

- *Italicize format* (\textit{}same as \emph{}))

- **Bold format** (\textbf{})

- *Slanted format* (\textsl{})

- Small caps format (\textsc{})

- <u>Underline format</u> (\underline{})
